

## We are looking for an Internal Accountant

### Who we Are

Veoware Space is a satellite equipment supplier. Our proprietary technology enables satellites, launch vehicle, space cargo and future moon /mars Landers to become 10x more effective than what is currently available.

The company is currently scaling-up and is offering a dynamic, multi-disciplinary and creative environment with evolution perspectives.

### Who we Hire

We're looking for individuals who are bold and entrepreneurial. We fully support learning from failure. We don't confine people to narrow job descriptions. Instead, we value adaptability and initiative over rigid roles or hierarchies.

Our team members are encouraged to test their own ideas. We are looking for people who don't keep quiet when they disagree, people who get bored easily and need to discover and learn a lot. We aim at hiring people who are multidimensional, combining technical depth with business savvy and creative flair.

### What You will do

You'll join the Governance & Administration team at a key moment of growth. As the right hand of the CFO, you'll help build a strong financial foundation that supports informed decision-making and sustainable success. Your work will give clarity and confidence to the entire organization. Our ambition is to create a proactive, data-driven finance function that empowers the business. You'll help us streamline processes, strengthen controls, and turn financial data into strategic insight — laying the groundwork for our next stage of expansion. You'll take ownership of accounting operations and financial reporting, ensuring accuracy and efficiency while supporting the CFO in daily management:

- Manage full accounting cycle, ensure compliance and accuracy
- Consolidate financial processes, prepare VAT and annual accounts
- Monitor and report on company performance
- Subsidy requests and management
- Daily accounting (invoicing, payments, reconciliations, etc.)
- Financial management and process (AR, AP, GL, CC)
- Administrative support for the other departments

### Must haves

- Fluent in English and Dutch
- Minimum of 5 years of experience in accounting
- Analytical mindset
- Team player, we aim to make the company grow together

### Would be super nice

- Experience with ERP Odoo
- Love for structure and organising
- Experience in aerospace sector
- Knowledge of tax incentives for R&D and innovation
- Knowledge in UK accounting

### What's in it for you

- Several nice add-ons on top of your salary
- Evolution perspective in a fast-growing company
- Office in Leuven, within biking/walking distance of the station
- Open and human work environment
- Being part of a strong team

**Does it feel like we are talking about you? Please apply here:**
