

# Production Associate for Dot Kitchen

## About Byteflies

We are the digital health company behind Sensor Dot, a powerful wearable platform for 24/7 acquisition of physiologic and behavioral data. We have developed remote monitoring applications for epilepsy, COVID-19, and atrial fibrillation, and have a pipeline of additional clinical indications. Currently, we are looking for a Production Associate to join our Manufacturing Team (aka Dot Kitchen) .

Byteflies is structured in autonomous cross-functional teams that have all skills to complete their own part of the Byteflies mission. **Our manufacturing team, Dot Kitchen, produces and builds our Byteflies kits and prepares them for shipping to clients and patients.**

## Your role

On a weekly basis, our Production Associate will:

- Manufacture byteflies kits and perform our manufacturing process which includes: assembly, soldering, glueing, welding, flashing, labelling and others.
- Follow our quality standards and fill corresponding records for manufactured products
- Analyze root causes of production issues and develop corrective actions
- Oversee inventory levels and place orders to avoid potential shortages
- Own the quality inspection and documentation process for incoming orders

## Your skills and experience

Our Production Associate should be someone who:

- Is willing to learn and own the manufacturing process from start to finish.
- Has an analytical mind with attention to detail
- Is precise, meticulous and very handy.
- Has a keen eye for quality and precision
- Is excited to be part of an impactful team that wants to revolutionize wearable health

**Maybe you're an electro-mechanical engineer, or you're studying to be one?**

**Maybe you like welding and soldering and tinkering with circuit boards a lot and would love to know more about our lean manufacturing process?**

**Maybe you're not an engineer but you're very handy and meticulous with a keen interest in creating high tech products?**

## We offer

- A position in our Antwerp (Belgium) team
- Competitive salary and benefits package
- Rapid career development paths
- The chance to have a direct impact on people's health care
- Awesome co-workers
- Great team events
