

# The DAWN camostat trial

---

TO IMPROVE THE TREATMENT OF COVID-19

**WHO?** 40+ with a positive Covid test in the last 7 days and symptoms for a maximum of 5 days

**WHAT?** Trial with 7 days of treatment, either camostat or placebo

**WHY?** To test whether you get better more quickly or become less sick with camostat

If you would like to participate in this study or you would like to get more information, please visit our website

[www.epi-centre.be/en/dawn-camostat](http://www.epi-centre.be/en/dawn-camostat)

or contact a study nurse via phone on **0492 13 45 32**.

### **Camostat:**

- Has been around for > 30 years;
- Inhibits the corona virus;
- So does camostat cure you faster or make you less seriously ill?

### **The study in brief:**

- You use the study medication (camostat or a fake drug = placebo) for 7 days;
- You fill in a diary for 30 days;
- Someone from the study team will contact you by telephone at various times and will visit you at home on day 8.

### **Would you like to participate, or would you like more information?**

- Call 0492 13 45 32 to make an appointment or
- visit our website [www.epi-centre.be/en/dawn-camostat](http://www.epi-centre.be/en/dawn-camostat)

Participation is entirely without obligation and free of charge. Together we are working on a better treatment of Covid-19!
