ISO9001 : Policy Statement

MinDCet is a fabless mixed-signal IC design company, with a **focus on integrated and discrete Power Management**, including supply-chain support for characterization, qualification, production, packaging and testing. MinDCet provides 4 types of products and services to their customers:

- ASIC Design
- Turnkey ASICs
- ASIC Products
- Measurement Systems

MinDCet approaches **each project equally important: every customer** gets full attention, **respecting** the agreed **leadtimes and milestones**.

The relation and **communication** with the customer has a capital role in the progress of the assignment; their input and **feedback** is used as input **to enable a continuous improvement** strategy.

MinDCet engages their **highly-skilled and educated team** to accomplish its customer projects. Employee selection is well prepared, screening each candidate on various skills and expertise. Each employee can count on an elaborated individual training program that is reviewed and adjusted on a continuous base. This strategy ensures that MinDCet always operates with the state-of-the-art technologies.

MinDCet engages **external suppliers** and **subcontractors** to provide the necessary tools, equipment and resources to support their projects.

The **leadtimes** and **quality** of these products and services are monitored on a continuous base, to support MinDCet's **permanent improvement** strategy.

MinDCet applies a **strict quality system** to **monitor** their **services, products and performance**, maintaining their customer focus as well as ensuring a continuous improvement. **Quality objectives are an integral part of the business. Every employee** has the **responsibility** to co-realize these goals, assisted with the required supporting procedures, instructions and forms. The management is committed to provide the resources for the realization of the quality objectives.

MinDCet implements and develops its **quality system** according to the ISO 9001 standards, to enable a **continuous monitoring and improvement** of its performance in terms of quality and **customer satisfaction**, with the engagement to meet all legal requirements.
