

17th European Conference on Perfusion Education and Training

Vienna - October 7th, 2017

1st announcement – Call for abstracts

The European Board of Cardiovascular Perfusionists (EBCP) has the great pleasure to invite you to their annual Conference on Perfusion Education & Training (ECoPEaT). The 2017 edition will be held on Saturday, October 7th, in Vienna and this year's theme is :

“Translating Research & Science into Good Clinical Perfusion Practice”

Taking into account the constructive feedback from the survey we send around after last meeting, we tried to further optimize our format & content to meet the requests & needs of our delegates.

In Vienna, we will welcome field experts & academics to share their experience & knowledge on perfusion related topics and to analyze the latest perfusion related research. We also encourage the submission of abstracts related to all aspects of ECC technology.

It is the philosophy of the EBCP to provide high quality education & training in a democratic way which can only be achieved thanks to supportive grants from the industry. In return, our sponsors will be given the opportunity to present briefly their latest developments.

Online registration will still be requested and can be done via the EBCP website (www.ebc.org) in due time and letters of invitation for visa purposes can be requested.

Abstract submission is now open and abstracts can be submitted via the EBCP website. The abstract deadline for presentations and posters is June 15th, 2017. Similar as last year, we will grant awards for best poster & abstract!

More information concerning our program, venue and sponsors will be advertised via the EBCP website as soon as available.

We look forward welcoming many of you in Vienna, the cultural heart of Europe!
