On behalf of MiECTiS Board of Directors we invite you to actively participate at “**MiECTiS Live 2020**” **Global Web Meeting**, which will take place on **Friday December 4th, 2020 17:00-21:30 CET**.

The event will be broadcasted live by CTSNet.

Free of charge registration.

Due to the current COVID-19 pandemic conditions, the 4th MiECT Symposium was postponed and scheduled for **June 24th-26th, 2021** in Canada. Thus, MiECTiS opted for an event so as to bridge its activities. “MiECTiS Live 2020” will be an open web meeting from the Society aiming to provide an update on MiECTiS initiatives as well as on MiECT advancements.

Representatives from all major companies will participate at the Industry session (19:00-19:30 CET).

Live audience will participate with comments and questions.

We hope this event will contribute to keep the network that has been formed on MiECT active and it will ultimately provide the scientific background for the upcoming 4th MiECT Symposium.

We invite **cardiac surgeons, anaesthesiologists, clinical perfusionists, scientists and researchers** involved in minimal invasive extracorporeal technologies to actively participate for a fruitful and productive web meeting.

Kyriakos Anastasiadis
Executive Board MiECTiS

Polychronis Antonitsis
Secretary MiECTiS
